

# Spring Synod Day Hike

## DIRECTIONS:

We'll meet at the Sycamore Canyon Trailhead (same parking lot as for the Satwiwa Native American Indian Cultural Center), entrance off of Lynn Rd at Via Goleta in Newbury Park, CA.

Sycamore Falls should have plenty of water flowing, and there should be plenty of green growing on the hills! Lord willing and weather permitting, we should see beautiful signs of life bursting all around us.

The hike is about 3.5 miles round trip and varies from easy to intermediate in difficulty. We have had both seniors and children join us many times before. Estimated time of return to the parking lot is 2pm (if not earlier).

**Recommended:** Bring backpack with sack lunch, water, hat, sunscreen (optional: camera, walking stick, bug spray, sunglasses). Definitely invite friends!

**Syn + od** = "Synod." This is a word that we in the LC-MS have heard of before. LC-MS, of course, is shorthand for "Lutheran Church - Missouri Synod." That last word, *synod*, comes from the Greek *syn* (meaning "same") and *od* (meaning "road" or "path," and from which we get our English word "odometer," which measures the road we're on).

So join us as we get on the same path and walk together!
